

Lambda

$\geq 1.5$

....there is a 50/50 chance of having been involved in at least one legal action.

....a history of asocial and/or antisocial acts is a possibility.

(Exner 1986, p. 314)

....frequently at odds with others.

....people are disappointed with them.

....not able to rise to the high expectations to which they are held.

....becomes cautious, hesitant, and conservative in addressing stressful situations.

....a history of legal entanglements is a possibility.

....ignores social demands and expectations.

....plunges ahead, often recklessly, seeking to satisfy their own desires in the face of social opposition, the consequences be damned.

....heedless of the consequences their behavior may have upon others and themselves.

(Exner 1996, p. 314)
