

Clinical Scale Elevations

Scale(s) 5 (Mf)

Males T-score 60-79

Females T-score # 45

Elevations on the present Scale(s), taking race, gender, age, education, marital and employment status into consideration for the corresponding group's data, indicate any or all of these clinical features could be present in this person's behavior and history:

They are inquisitive and curious. They are sensitive and imaginative. They take pains to have art and literature in their lives. They are inclined to pursue higher education when the opportunity presents itself. They do not usually enjoy the rough and tumble for it-self alone. They can be adventurous. They seek out the novel, unusual and unexpected. They seek out the companionship of like-minded persons. They tend to look for energetic, take-control persons. They do not particularly object to being a follower.
